

Explanation of Resource Guide

Functional Capabilities (Personnel)

Resource	Comments	Qty
Ground Search		
Search Management		
AFRCC (5-day)		
K9 Search		
Mounted Search		
Support Personnel		

List your agencies functional capabilities (above) by checking the appropriate boxes next to the available resources. Functional capabilities consist of your entire agencies search trained and support personnel.

Comments can be used (below) under “Agency Personnel and Assets For Mutual Aid Deployments” to further explain any special notes or qualifications of that certain personnel or asset. The quantities of each of the categories will help provide ISARC an overall picture of the resources throughout the entire membership.

Dispatch Method

Dispatch Agency	
Telephone	
E-Mail Address	

Dispatch Method if different than the Search and Rescue Representative listed on the membership application page...i.e. County 911 Center, PSAP or answering service.

Agency Personnel and Assets For Mutual Aid Deployments

Personnel	Comments	Qty
Ground Search		
Search Management		
AFRCC (5-day)		
Mounted Search		
Support Personnel		

List the quantity of personnel available in each category that could be available for mutual aid deployments.

Comments can be used to further explain any special notes or qualifications of that certain personnel.

Ground Search: Personnel that have completed the ISARC 16-hr GSAR Course and have a current certification

Search Manager: Personnel that have completed the ISARC 16-hr SARM Course and have a current certification

AFRCC (5-Day): Personnel that have completed the 5-Day Air Force Rescue Coordination Center (AFRCC) Inland SAR Planning Course (ISPC)

Mounted Search: Personnel that have completed 16-hr GSAR Course and have assigned Agency approval to operate in Mounted Search Operations

Support Personnel: Personnel trained to assist in Search Base Operations

K9 Personnel	Comments	Qty
K9 Tracking/Trailing		
K9 Air Scent		
K9 Human Remains (HRD)		
K9 Disaster		
K9 Water		

Please indicate the number of Operational K9 Teams within each discipline. Note: Operational K9 Teams are defined as a Handler/Dog which currently hold a certification to a National Standard in that specific discipline. Comments can be used to further explain any special notes or qualifications of that certain Handler/Dog.

Resource/Asset	Comments	Qty
ATV/UTV W/Staff		
Boat		
Command Post		
Communications Trailer		
Compass Cache		
Equipment Cache		
Equipment Trailer		
Generator		
GIS Capability		
GPS Cache		
Handheld Radio Cache		
Lighting Capability		
Metal Detectors

PFD/Rope Throw Bag Cache		
Radio (UHF)		
Radio (VHF)		
Snowmobile		
Thermal Imaging		
Transport Vehicle		
UAV (Drone)		

Assets you Agency could bring to a deployment at some point. This does not mean that you would have to bring all assets all the time, but just so fellow members could have an idea of what they would be able to ask for.

ATV/UTV

ATV has one driver

UTV has one driver and can carry passengers or equipment

Boat

With trained operator. List special capabilities.

Command Post

Command Post with assigned trained operator.

Communications Trailer

Communications Trailer with trained operator.

Compass Cache

Compass Cache capable of being loaned out.

Equipment Cache

Search Equipment capable of being loaned out.

Equipment Trailer

Equipment Trailer capable of use during search operations.

Generator

Generator capable of providing auxiliary power.

GIS Capability

Personnel, equipment, and software capable of providing GIS capability.

GPS Cache

GPS equipment capable of being loaned out.

Handheld Radio Cache

Radio Cache capable of being loaned out. Please list radio capabilities.

Lighting Capability

Lighting equipment capable of providing long term area lighting.

Metal Detectors

Metal detectors with trained operators.

Night Vision

Night vision with trained operator.

PFD/Rope Throw Bag Cache

PFD/Rope Throw Bag capable of being loaned out.

Snowmobile

Snowmobile with trained operator.

Thermal Imaging

Thermal Imaging with trained operator.

Transport Vehicle

Agency Transport Vehicle capable of carrying personnel or equipment.

List capacity.

UAV (Drone)

Agency affiliated UAV/Drone with Trained/Licensed Operator and support personnel.

List specific capabilities.

Mutual Aid Response	ISARC Regions or Distance from Home Base
Initial Mutual Aid Response	
Secondary Mutual Aid Response	

Where are you willing to send your personnel and/or assets in a mutual aid deployment and when. You can either judge that distance by distance or call out the ISARC region(s) that your agency would be limited to in either the Initial operational period or subsequent operational periods.

If there are no changes to your previous resource guide, please mark that fact and return it with your membership dues

We thank you in advance for completing the Resource Guide portion of the sheet. It will help agencies that contact ISARC through the hotline or other means to have a better idea of what is available in the event of a callout.

Remember that a benefit of being a member agency of ISARC is that you can call the ISARC hotline, in the event of a search, let the duty officer know what you have already working at the deployment and what personnel and assets you are in need of. That duty officer will be able to, on your behalf, contact other ISARC agencies and arrange that assistance. This will allow you to manage your incident without having to worry about those subsequent calls and return calls. If your incident gets resolved prior to personnel and assets being needed, you will then just call the hotline back and “stand down” all incoming assets.
